SUMMARY

Passionate full stack developer adept at front-end and back-end technologies, creating responsive web applications. Eager to apply skills and drive innovation in a collaborative team setting.

WORK EXPERIENCE

ReactJS Intern | MyOperator

Jan 2024 - Present

- Worked with the core team on NestJS and ReactJS to develop API endpoints and UI elements for the WABA (WhatsApp Business Accounts) feature of MyOperator.
 - Developed various conversation flows using Google Dialogflow CX and Freshchat, while gaining experience with Cloud Functions and ChatGPT.
 - Worked with a team to develop an AI chatbot in order to reduce Heyo's customer support workload by 80%.
-

PROJECTS

Online Homework Management System

- Created a high-performance web application using the MERN stack to streamline the homework and submission process, leading to improved student outcomes.
- Leveraged AWS S3 to securely and efficiently store homework and submissions, reducing the database load and enhancing the overall performance of the web app.
- Developed a responsive frontend with Bootstrap and React-Bootstrap, elevating the user experience.

Visited Places

- Developed a web app using MERN that enables users to share and explore their visited places.
 - Ensured user authentication with JWT, achieving reliability and security.
 - Provided image upload functionality for users, enhancing user engagement.
-

EDUCATION

Bachelor of Computer Application

Jan 2021 - Jan 2024

Indira Gandhi National Open University

- Scored 7 CGPA.
- Project on "Online Homework Management System".

10+2

Apr 2018 - Apr 2019

Rajkiya Pratibha Vikas Vidhyalaya (RPVV), Yamuna Vihar

- Scored 94.7% in PCM.
 - Participated in State Level Science Exhibition
-

SKILLS

- **Technologies:** MERN (MongoDB, ExpressJS, ReactJS, NodeJS), Vite, NestJS, Jest, OpenAPI, Swagger, Bootstrap, Tailwind, Styled-Components, UI libraries like React-Bootstrap.
- **Deployment and Cloud services:** Digital Ocean, Server Management, GCP cloud function, AWS S3.
- **Programming Languages:** HTML, CSS, JavaScript, TypeScript, SQL, Python.
- **Other Skills:** RESTful API design and implementation, API integration, Git, Gitlab, Postman, Docker, DBeaver, Team Work, Excellent communication., Strong work ethic and initiative.
